Umna.Q

WEB DEVELOPER (FRONTEND)

OBJECTIVE

Seeking a position where I can apply my skills in HTML, CSS, and JavaScript to build engaging and user-friendly web experiences, while continuously learning and growing within a dynamic team.

SKILLS & TOOLS

Languages & Technologies: HTML, CSS, JavaScript.
Code Editors: Visual Studio Code
Design Tools: Figma, Canva
Version Control: Git (basic)

PROJECTS

Personal Portfolio Website
Tools: HTML, CSS, JavaScript

- Designed and developed a fully responsive personal portfolio website from scratch.
- Includes custom sections such as About, Skills, Portfolio Gallery, and Contact Form.
- Features interactive UI, modals for skill expansion, and smooth navigation.

Restaurant Website (Pizzeria)
Tools: HTML, CSS, JavaScript

- Developed a fully responsive frontend for a Pizzeria website, ensuring optimal viewing across various devices.
- Implemented core sections: Home, Menu, Deals, Contact, and Customer Reviews.
- Features interactive UI elements, such as a dynamic mobile navigation menu, to enhance user experience and accessibility.
